SEMANA XXI COLOMBOCHINA

AGOSTO 25 - 27

Bogotá, September 28th, 2021

Mrs
Liu Yahong
President
South China Agricultural University-SCAU
Guangzhou-China

Dear Mrs Liu:

On behalf of the Colombian-Chinese Friendship Association I express our deepest gratitude for the support, coordination and participation of the South China Agricultural University along the XXI China-Colombia Week "Smart Agriculture for Ecomarkets in China" which took place last August, 25th to 27th 2021, with about 80 public and private entities representing the government, academia and scientists from both countries.

SCAU had a strategic key role from the conceptualization of the main topics, selection of high profile scientists who delivered the conferences and even on the protocolary events. I had to praise specially the hard and dedicated work of Mrs Yuan Juhua. I think it is fair for the scientists and participant academic institutions in the China Colombia Week, to say that we together have reached a milestone in the history of Colombian academic work related to China.

The Association considers SCAU as a main strategic partner for the improvement of our academic plan, and the objective of making the China Colombia Week a scenario of qualified analysis on different topics of the increasingly diverse agenda between China and Colombia.

SEMANA **XXI** COLOMBOCHINA

AGOSTO 25 - 27

We hope to have your support in other forums and events that make up our academic agenda, at the level of qualification that we achieved in the XXI Colombo-Chinese Week, thanks to the fruitful and mutually beneficial relationship developed between SCAU and the Colombia China Friendship Association.

Sincerely,

GUILLERMO PUYANA RAMOS
